

Announcement of ringed seal tank renewal construction

We will be undergoing renovation work on the ringed seal tank on the 4th floor of the entrance building, "Arctic Region", from Tuesday, January 23, 2024. Reopening is scheduled for April 5, 2024.

(* It may be subject to change according to the condition of animals, etc.)

We are working to improve the breeding environment from the perspective of animal health management and animal welfare.

We have decided to carry out renovation work on the ringed seal tank so that the ringed seals can live more comfortably than they currently do and allow our customers to see them lively.

During the construction period, ringed seals cannot be viewed, but we appreciate your understanding and understanding as this work is to create a better environment.

In addition, we plan to publish about the life of the ringed seals in the backyard our blog Kaiyukan Diary and on our official SNS.
